

Stone Panel Carriers (Wired)

Aardwolf panel carrier is designed for lifting and carrying large, bulky and heavy construction materials such as glass, granite, marble, plywood, chipboard etc. as plates.

Aardwolf panel carrier clearly reduces the potential pressure on fingers, waist and back. Also, it reduces physical exhaustion. Aardwolf panel carrier attaches to the sides of the panel and serves as an interim and strong handle for carrier workers. It allows for workers to lift and carry the panels without facing any back issues.

Features

- Mechanism for opening the outlet and releasing the load with wire used by a finger
- Made of robust, light aluminum
- Openings continuously adjust themselves
- Tempered rubber coating with high friction prevents material surface from damage or decaying
- Molded rubber handles
- Automatically locked to the panel
- Holds the panels like a clamp

Details

Stone Panel Carriers (Wired)	Metric (mm-kg)	Imperial (inch-lbs)
Grasping range	0 - 52	0 - 2
Workload limit	150	331
Net weight	2.3	5
Gross weight	2.6	5.7
Package size	315x165x110	12.4x6.5x4.3
