

ELECTRIC VACUUM LIFTER AEVL1 - 250 KG

Featuring a sliding valve, the AEVL1-250 is a powered vacuum lifter which is suitable for securely handling small-sized materials. By means of a vacuum tank, the lifter ensures safe pick-up in the event of a sudden power break to the vacuum pump.

Features

- Metal structure tilting from 0 to 90° manually
- Vacuum tank for no risks when lifting/tilting materials
- Slider valve with an ON/OFF position for attaching materials to the vacuum pads and releasing the materials from vacuum pads
- Audio-visual alarm system

Specifications

	Metric (mm-kg)
Pad dimension	520x320mm
Working load limit	250
Net weight	35
Gross weight	48
Packaging dimension	760x660x470

- Battery information for alarm system

Power supply	3.7V Lipo battery
Battery capacity	2000 mAh x 1
Adapter	DC 5V-1A
Standby time	720 hours
Charging cycle	1000 times
Charging time	2 hours
Non-stop working time	7 hours
6-month warranty	-

- Motor information

Input supply	AC 220-1Phase 50/60Hz
Vacuum flow rate	-
