

ROCK LIFTER GRAPPLE ARL-800

The Rock Lifter Grapple is an attachment that makes moving and setting large rocks and boulders a snap. Designed for the landscape contractor, stonemason, or anyone else who works regularly with rocks and boulders. The Rock Lifter Grapple is an efficient solution to work faster, better and with less labor.

Features

- High tensile steel welded construction.
- Simple and reliable operation with minimal maintenance.
- A safer and easy way to move large rocks.
- Suitable for handling boulders and stones of almost all shapes.
- The greater the weight the harder the tongs grip.
- An actuator allows the clamp to grab and release automatically during each cycle.

Specifications

	<u>Metrik (mm-kg)</u>
